

# Review of: "Web-Based Crime Management System for Samara City Main Police Station"

P. Z. Seenu<sup>1</sup>

<sup>1</sup> National Institute of Technology, Warangal

**Potential competing interests:** No potential competing interests to declare.

The article highlights the gap and the need for an automated crime management system.

The abstract summarises the issue and solution without technical details.

Briefly describe the system's development technology or platform.

Lack the structure of a technical paper.

A more detailed literature review is required.
