- The article is very important and very good in terms of information, but it is very long and complex.
 - The Abstract should be short.
 - Specify "health workers" in the theme or in the abstract (Doctors, nurses,...)
 - Revise the language for grammatical errors.
 - Results and tables are very long.
 - $p=0.05$ and not 0.005.
 - key words: Antihypertensive medications adherence, Blood pressure control, Health care workers(Doctors, nurse,...)
 - Look at the methodological and statistical side in this article, it can be useful for you :
