

Review of: "How to search for patents on the recovery of rare earth metals from electronic waste"

Xijuan Tan

Potential competing interests: No potential competing interests to declare.

This article discussed the recovery of REEs from electronics using patent search. This will be beneficial for future research on the recovery of REEs. It is highly recommended that the author also gives a summary of the strategies for efficient recycle of the REEs from electronics since the waste reaches over 50 million tons.
