

Review of: "Lexico-Syntactic Study of English Usage in Online News Responses and Their Implications for 21st-Century Pedagogy"

Olushola Oyadiji

Potential competing interests: No potential competing interests to declare.

The paper has a lot of potential, but the analysis needs to be deeper and more robust. For instance, the patterns of each code-switching situation could be traced and explicated. There are a few grammatical infelicities observed too: check the introduction section for one of such.
