Review of: "A Review of Grouper Fisheries Management in the Southeastern and Caribbean U.S.: Challenges, Successes, and Future Directions"

Jorge Ramírez-González¹

1. Interdisciplinary Fisheries Project, Charles Darwin Foundation, Puerto Ayora, Ecuador

It is a very good bibliographic compilation of the biological-fishing dimension to discuss the management of the grouper fishery. There are some minor revisions; however, a major one is that the socio-economic dimension was not included. It is very important for any fishery-management review. Attached is a PDF with comments on the MS.
