Discover and Develop HIV Treatments-Preclinical

National Cancer Institute

Source

National Cancer Institute. *Discover and Develop HIV Treatments-Preclinical*. NCI Thesaurus. Code C18747.

Improve understanding of the structure and function of molecular targets in order to develop improved assays for such targets; conduct screening, discovery, and preclinical development of novel anti-HIV agents and strategies (such as gene transfer technology and interruption of transmission) directed to the virus and/or host cell; and foster industrial activity and collaborations.
