# Boyd Body Surface Area Formula

National Cancer Institute

## Source

National Cancer Institute. *Boyd Body Surface Area Formula*. NCI Thesaurus. Code C68650.

The formula to calculate body surface area as described by E Boyd. It is mathematically defined as:  $BSA (m^2) = 0.0003207 \times [Height(cm)^{0.3}] \times [Weight(g)^{0.7285 - (0.0188 \times \log(g))}]$
