

Review of: "Tocilizumab Plus Corticosteroid in Elderly Patients Hospitalized With COVID-19 Pneumonia: A Retrospective Cohort Study"

Amarjeet Kumar

Potential competing interests: No potential competing interests to declare.

Congratulate the authors for this retrospective study. before comes on conclusion following revision should be addressed

Please add Pao2/Fio2 ratio and severity of ARDS comparable in both groups.

Add P value in patient demographic table to see level of differences among the patients of both groups

If possible add birates score or CT severity score too in both group so that uniform disease severity pattern comparable in terms of clinical, radiological and inflammatory markers

No clear cut discussion regarding actual Fio2 on which treatment started and also regarding how much patient receive repeat dose of tocilizumab. please mention it in manuscript
