# Anticachexia Agent MT-102

National Cancer Institute

## Source

National Cancer Institute. *Anticachexia Agent MT-102*. NCI Thesaurus. Code C95700.

A small molecule with potential anticachexia activity. The anticachexia agent MT-102 may increase protein synthesis and decrease muscle protein breakdown. This may result in improved body weight, muscle mass and may improve weakness and fatigue associated with cancer-related cachexia.
