

# Review of: "Flourishing in Salsa Dance: A Qualitative Investigation of Aesthetic, Artistic, and Creative Contributions"

Sargun Sandhu

Potential competing interests: No potential competing interests to declare.

The authors have done a good job with the design and presentation of their study . The article is well written and provides great insights.

However , I will suggest to the authors to construct a separate table for the themes and the related quotes by the participants instead of mentioning them in the discussion . This will provide more clarity to the reader . Also it would be good if the authors also mention within that table the total fragments under each theme .
