## My Comments

- 1) It is an excellent article; at this time, the world is moving to a renewable-energy economy.
- 2) The first line of the Introduction, 'HE,' should be written as "The."
- 3) The fifth paragraph of the Introduction needs an in-text citation.
- 4) Section II - Literature is not acknowledged. The introductory paragraph needs an in-text citation.
- 5) There should be an introductory paragraph for Section III.
- 6) The conclusion section is too long.
- 7) Enough literature materials were consulted.
