Potential competing interests: No potential competing interests to declare.

- Discuss relevant theories of child development and parenting education that support the need for comprehensive ECD programs.
- Consider including focus group discussions or interviews to gather in-depth qualitative data on the experiences and perceptions of parents regarding current educational programs.
- Highlight the importance of training healthcare providers on effective communication and education strategies to support parents.
- Suggest studies to evaluate the long-term impact of these educational services on child health, parental well-being, and community development.
