Performance of the Upper Limb Module for DMD 2.0 Functional Test

National Cancer Institute

Source

National Cancer Institute. *Performance of the Upper Limb Module for DMD 2.0 Functional Test*. NCI Thesaurus. Code C138335.

A revised version of the Performance of the Upper Limb Module for DMD 1.2 Functional Test, which was developed by an international clinical outcomes group in 2011 to measure motor performance of the upper limb in patients with Duchenne muscular dystrophy (DMD). Functional tasks are subdivided into three dimensions that reflect disease progression from proximal to distal weakness, and from ambulatory to non-ambulatory.
