Potential competing interests: No potential competing interests to declare.

- Useful, necessary, important themes for identifying some mechanisms for increasing academic performance;
- A supplement and update of the theoretical foundation of the study is required (for example, the concept of motivation is not defined);
- It should be explicitly stated how the ethical conditions of the research were respected;
- The conclusions part could be expanded with a more complete perspective on the usefulness and impact of the results of this study and this type of study;
- It would be useful to specify some limitations of the research.
