Research Construction Programs, C-Series

National Cancer Institute

Source

National Cancer Institute. *Research Construction Programs, C-Series*. NCI Thesaurus. Code C19003.

To provide matching federal funds, up to 75%, for construction or major remodeling, to create new research facilities. In addition to basic research laboratories this may include, under certain circumstances, animal facilities and/or limited clinical facilities where they are an integral part of an overall research effort (C06). (from Grant Guidelines and Descriptions, NCI)
