**Potential competing interests:** No potential competing interests to declare.

In Section 2, First Line, I think Blockchain Technology is from 2008 not 1990. I have sent the Sakashi Nakamoto White Paper link for your reference <https://assets.pubpub.org/d8wct41f/31611263538139.pdf>.

Kindly, improve your introduction portion as much as you can, try to write one paragraph what others has done in this area and what is the Research Gap/Novelty of your Study. I think, it will make your study more interesting for a Readers.

These are just my suggestions. I hope it will work for you.

The authors are doing great job on interesting Topic. Good Luck and Cheers.
