

Review of: "Exploring the Significance and Medicinal Potential of *Rubus fraxinifolius*: A Review of Ragimot Wildberry"

Kamila Batista

Potential competing interests: No potential competing interests to declare.

The review is on a very relevant topic, but lacks deeper information, such as:

- Nutritional composition --> exemplify the bioactive compounds found in Ragimot wildberry; quote the average values of iron, total phenolics, flavonoids, carotenoids, and other phytochemicals found in Ragimot wildberry; quote the average value of antioxidant activity by different methods.
- Functional properties --> in this section, there is a need to provide more information about the studies included, especially the type of study, whether in vitro or with animals or humans.
