

# Review of: "The Application of PROMETHEE with the recalculated weight method as a more accurate measurement for the selection of the best Hybrid Renewable Energy Technology for a slum building"

Djilali MESSAOUDI

Potential competing interests: The author(s) declared that no potential competing interests exist.

- English in the manuscript must be improved because there are unclear passages and short phrases.
- What is the most innovative aspect of this study?
- More information about the HOMER software.
- Keywords should include MCDM.
- Few more recent literatures based on MCDM technique are need to be added.
- There are no references to where the steps of the methodologies (Critic, Entropy, AHP, Fuzzy AHP) were taken.
- References should be updated
