

Review of: "Boring Language Is Constraining the Impact of Climate Science"

Paolo Lauriola

Potential competing interests: No potential competing interests to declare.

I found the article to be quite intriguing and informative. To further enhance its effectiveness, I would suggest including some examples of both dull and engaging text and how visual aids can aid in comprehension. Additionally, it would be fantastic to incorporate the perspectives of actors or other individuals. Nonetheless, I appreciate the effort put into bringing attention to this important topic.
