

Review of: "Raising Adaptive Capacity to Climate Change in Energy and Food Sectors of Egypt"

Kosar Bano

Potential competing interests: No potential competing interests to declare.

The topic is relevant to contemporary issues. It gives a clear picture of the issue through tables and graphs. The methodology section requires more detail. Ensure that each step of the research process is clearly explained, including the rationale behind the chosen methods and any potential limitations. Review and correct any grammatical errors throughout the text to improve clarity and readability.
