Oral Drops, Solution Dosage Form

National Cancer Institute

Source

National Cancer Institute. *Oral Drops, Solution Dosage Form*. NCI Thesaurus. Code C149711.

Liquid, usually multidose preparation consisting of a solution intended for oral use. The preparation is administered in small volumes by means of a suitable measuring device such as a dropper, pipette or oral syringe capable of accurate dosing of the solution. The measured dose may be diluted in water or another suitable liquid before swallowing.
