Potential competing interests: No potential competing interests to declare.

- • Add a literature review and compare the problem statement with it.
- • No need for research questions.
- • The methodology should be related to the current topic.
- • the analysis needs to be clarified and connected to the topics.
- • Use recent references.
- • Follow APA style V. 7.
- • Compare both the conclusion and recommendations in one part.
- the result mentioned the role of the school environment, but it was not one of the factors related to the study.
- A recommendation can be added to parents to know their effective role in enhancing their children's adaptation to schools.
