Well, the topic is good and well written. Some of the points need attention:

1. The paper is not properly aligned.
2. The caption of the table is not matched in the text.
3. Quality of the table is poor.
4. There is no results discussion part.
5. There is no conclusion part.
6. The table shows only the status, but no proper explanation is there.
7. The organization of the paper is not according to a research paper.
8. Please check the grammar throughout the paper.
