Potential competing interests: No potential competing interests to declare.

An interesting work is described about the design and fabrication of a handbrake release system by accelerator.

o.- What is the difference and advantage of the proposal with respect to the works described in the introduction? Highlight the contribution of the work.

o.- Reference 6 does not appear in the introduction.

o.- Improve the structure of the methodology.

o.- Perhaps describe the equations and at the end add some parameter table, which when substituted produces the results.

o.- Check some equations; units appear in some and others do not.
