Potential competing interests: No potential competing interests to declare.

1. The field of study is not clear. There is a mix up of concepts and terms e.g. e-learning, online learning and virtual learning
2. A brief about existing studies (facilitator, barriers) was presented, but what does the researcher intent to do? What is the problem with those studies? The gap is not clear
3. Application (s) of UTAUT was reviewed and addition of constructs, aspects suggested. However, the rationale for addition is not stated /clear
4. The reason for not testing some of the constructs e.g. behavioral intention was not stated
5. The target population and sample size need to be described more
6. When you say that there is no/ there is a significant relationship, what does that mean?
7. The conclusion is brief and so the take home message is not clear
8. Visual presentation of the tested UTAUT model. The researcher talks about testing UTAUT models, classical UTAUT model and revised model in the results section. so ??
9. The discussion cab be improved by following the tested hypothesis.
