**Potential competing interests:** No potential competing interests to declare.

Thank you for the opportunity to review this paper.

## 1. The need for research

- There is a need for more research on the effectiveness of clown therapy.

## 2. Research problem

- Need to describe the review process to determine whether the research problem developed by the researcher is appropriate to achieve the research purpose.

## 3. Describe the opinions you want to present by answering the research question.

## 4. When describing the contents of adults and children on coulrophobia, it is necessary to describe the categories of adults and children, such as up to the elderly for adults and up to what age for children.
