Introduction

More literature should be provided on sefradin and its derivatives

General procedure for the preparation of Schiff bases of cefradine (3-8)

The general synthesis method of Schiff bases should be outlined with an example for one substance, and it should be stated that others were synthesized in a similar manner.

The H-NMR and C-NMR results of synthesized Schiff bases should be provided in the article. Additionally, the article should include LCMS analysis results for all synthesized compounds.
