Potential competing interests: No potential competing interests to declare.

This is an important topic to be discussed.

Congratulations on considering a good topic for research.

The manuscript is well conducted and written.

However, some points need to be considered.

Title: Kindly add the study design to the title

Introduction: Mention the research question, aim, or hypothesis explicitly in the introduction

Methodology: Mention how the sample size was estimated (software and formula)

Is the STROBE guideline for reporting the study considered? If yes, kindly mention

Ethics committee approval number is not mentioned.

Validity and reliability of the translated version of the questionnaire to be addressed clearly.

Results: Kindly add a few lines in the results section for better comprehension of the public.

The manuscript can be improved by adding a few figures or diagrams. And if results are provided in layman language, it will enhance better understanding.

Mean comparison diagrams like box whisker plots or simple bar diagrams. Some correlation diagrams will help
