Potential competing interests: No potential competing interests to declare.

The article is average in its readability, and I need to appreciate that the author tried to write a new angle to bring different concepts of medicines into our Indian system. .Spirituality is one of the major practices to be healthy according to the world health organization. I will agree with WHO definition of health.

Please find the following inputs

1. Content is Missing to overview of herbal drugs
2. Improve the language and spelling mistakes in Abstract sixth line (**herbal teas**)
3. Article is very generalized need to Add some examples of herbal drugs which related to Veda's
4. Rationality of Vedas proofs need to include
5. Compare and contrast current relevance of herbal drugs
6. References need to include recent publications
