

Review of: "Assessing Reliability and Economic Viability of Different EV Charging Station Configurations"

Prashant Kumar

Potential competing interests: No potential competing interests to declare.

1. Main contribution of the paper is not clear. Summarize it.
2. Statistical indices need to be mentioned in the paper and compared with conventional methods.
3. Proposed methodology is not clear and needs more description with mathematical expressions.
4. Results section and conclusion need to elaborate more with data and significant results achieved.
