

Review of: "Catholicity in thirteen words"

José Manuel Salgado

Potential competing interests: No potential competing interests to declare.

Pablo Blanco is a professor at the Faculty of Theology of the University of Navarra. But he has also taught Introduction to Christianity classes in other Faculties. That is what has motivated him to publish a book on bringing Christianity closer to his students in a attractive and schematic way, of which this article is a brief summary. The book is titled *Christianity in 13 Words: Questions and Answers about Faith*.

The article that we are reviewing now is a simple and comprehensive reading that summarizes the main aspects of the Christian faith in the words: Creation, Bible, Covenant, Flesh, Person, Easter, Church, Glory, Grace, Freedom, Truth, Love, Prayer. We think is an accurate summary and we highly recommend reading this article and this book.
