Potential competing interests: No potential competing interests to declare.

By reviewing the research presented

1- The use of artificial intelligence to identify people and objects has been presented in many previous works

2- You can add the mathematical equations needed for business programming, Please add a section, **Mathematical aspects in CNN Technology for person and object detection**

3- The following sources can be viewed and attached to the sources for the paper

DOI: 10.11591/ijeecs.v31.i1.pp290-298

DOI: 10.11591/ijeecs.v30.i3.pp1771-1776

DOI: 10.11591/ijeecs.v31.i3.pp1829-1838

DOI: <https://doi.org/10.69793/ijmcs/01.2025/zainab>

<http://ijmcs.future-in-tech.net>

The sources that were suggested are considered a reference to the paper in previous work and the accuracy reached in it
