I have read the article and i considered that the topic is very important to understand the situation that teacher aroud the world experienced during the COVID-19. There are a few things that i would recommended ckecking . 1) There is a different between online class and emergency remoto class. In this sense I recommend you to read the paper wrote by Hodges CB, Moore S, Lockee BB, Trust, Torrey, Bond MA. (The difference between emergency remote teaching and online learning. 2020) and the paper the Villa et al. named Perception of the quality of remote lessons in the time of COVID-19: A comparative study in Latin America quality. Both paper can show you the specific point between the two kind of educaction. It is important to understand the difference because online education has a strrong epistemology.

On the other hand, it is necesary to improve the descripcion methodology descripcion. In specific, show the triangulation used to do the data analysis and indicate which software used to precess the information. Further, it is relevant to show the categories analysis and how they were reached.
