**Potential competing interests:** No potential competing interests to declare.

A comprehensive Comment of the paper could be found in the tracked changes on the soft copy.

I can say that the paper is well written.

The objective is clear and method adopted is acceptable to achieve the objective.

The results are plausible and the interpretations follow from the results.

However, The author should mind paragraphing. Most often they are too long. I will suggest that a paragraph should be between 8 and 14 lines.

Others will be found in the soft copy.
