# Small Intestine Cancer Clinical TNM Finding v7

National Cancer Institute

## Source

National Cancer Institute. *Small Intestine Cancer Clinical TNM Finding v7*. NCI Thesaurus. Code C89881.

A clinical finding about one or more characteristics of small intestine cancer, following the rules of the TNM AJCC v7 classification system. Imaging studies such as CT and MRI play a major role in clinical staging. Metastatic disease is assessed by routine chest films and chest CT. Intraoperative assessment plays a role in clinical evaluation, especially when tumor cannot be resected. Metastatic involvement of the liver may be evaluated by intraoperative ultrasonography. (from AJCC 7th Ed.)
