

# Review of: "Beyond the Fear of Artificial Intelligence and Loss of Job: a Case for Productivity and Efficiency"

Peter Yeoh

Potential competing interests: No potential competing interests to declare.

The article addresses a global problem. It would be too challenging for a journal article to cover many jurisdictions to lend support to the article's arguments. It might be more feasible to outline the global challenges and provide evidential support from selective jurisdictions where the use and impact of AI on their economies are extensive. Also, when discussing especially from a largely economic perspective to draw more on relevant economic literature or empirical economic data and insights.
