Potential competing interests: No potential competing interests to declare.

The manuscript (Examining Water Use and Sanitation Practices in Rural Schools of Chegutu District, Mashonaland West Province, Zimbabwe) try to covered the problem of the available water, sanitation, and hygiene within some rural secondary schools.

The main point that required amendment are follow:

1. More references are necessary with in the introduction and literature parts.
2. literature part required more details.
3. The discussion part required more citation to support the results.
4. Some suggestions are required in recommendation part.
5. Recent references are required in whole the paper.
6. All the sub-sections required more details.
