

# Review of: "Perception of Biodiversity versus Connection to Nature: Which Can Influence Wildlife Product Consumption in Vietnam?"

Rupesh Kumar<sup>1</sup>

<sup>1</sup> O. P. Jindal Global University

Potential competing interests: No potential competing interests to declare.

Author have done a good job but only essential corrections needed before publications:

1. Introduction: There should be section wise representation of all headings included in a single para at the end.
2. LR: I unable to see the research gaps and objectives. Please include latest references which will give you an idea of work in different sectors. Few important papers needs to be added: DOI: 10.4018/978-1-4666-5202-6.ch022 ; <https://doi.org/10.1504/IJBPSM.2015.073770> ; <https://doi.org/10.3390/w15081498> ; <https://doi.org/10.1504/IJLSM.2020.103862> ; <https://doi.org/10.1016/j.jclepro.2022.133311> ;
3. Methodology: Please check for proper citation of figures and tables in the text. In addition, there is no source given for figure and tables. If it is self then author should cite as "Source: Author Composition" or similar. Few of the latest papers in which SEM and similar methods done should be cited in the text like: <https://doi.org/10.1007/s10479-023-05431-1> ; <https://doi.org/10.1111/opec.12287> ; <https://doi.org/10.3390/horticulturae8111018> ; <https://doi.org/10.1177/097226292211432>
4. Results and Discussion should be seperate heading and must showcase the outputs and compare with other studies also.
5. Implications should be added in this (Political, Practical and Social if any).
6. Conclusion part is written in very short. Compare your study with other authors and write in conclusion and extend a bit more.
7. Limitations and future work should be included as a seperate heading or may be a part of conclusion also in the last para.
8. Please make a proper structure of your manuscript like aligning with Introduction, LR, Gaps, Objectives, Methods and Materials, Analysis, Results and Discussion, Implications, Conclusion, Limitations and Future Scope and References.
