Potential competing interests: No potential competing interests to declare.

1-In the phrase "plantations evolved into new initiatives within agrarian capitalism (Alonso-Fradejas, 2015)", what is this evolution? 2-Define "Normalization", "Plantationocene". 3-What are the differences between Plantationocene Normalization, Traditional Agriculture and structural conditioning? 4-Is Normalization dependent on temporal or spatial scale? 5-What are the preponderant structures in the normalization of the Plantationocene? How does each one contribute to this Normalization process? 6-Providing a table, summary or informative flowchart of the theories discussed in the article would provide greater understanding to readers.
