Potential competing interests: No potential competing interests to declare.

This article examines a crucial topic in the economy, namely the economic crisis that occurred in Ethiopia. Currently, this has become a global issue and impacts most developing countries. where in terms of economic stability we still have to continue to strive for it. This article is very important because it discusses the main factors influencing the economic crisis in Ethiopia, and lists the most important issues to overcome Ethiopia's economic problems.

This article also provides recommendations that must be carried out by the government through the relevant departments. To make it easier for readers to understand, it should be divided into several parts (introduction, theoretical review, method, discussion, conclusions, recommendations), so that understanding of this article can be coherent.
