Review of: "Intelligent Transportation System Real-Time Tracking"

Maya Shelke

Potential competing interests: No potential competing interests to declare.

1. Need to clearly highlight on what is the innovation in the research paper as this idea is being successfully used in many countries.

2. Need to mention contribution of the research point by point in the proposed solution section.

3. End part of the introduction section should include organisation of the remaining paper.

4. Literature review section is missing. It will help readers to understand current state of the art in Intelligent Transport system and to find Gap analysis.

5. Cite or call out figures, tables, equation numbers, references in the text where content or reference of it is used.

6. Result section should include current state of the art comparison and comparative analysis with the existing system.

7. Include equations to enhance quality if the result section.

8. Mention limitation of the current research.

9. Research paper should have minimum 15 references.

10. Add recent year papers in the references (year 2019,2020,2021,2022,2023)
