- It is a great study and interesting to read. However, more work needs to be done on the paper.
- **Abstract:**
- Results section needs to be expanded to add more information regarding sample size.
- Conclusion is different from the results
- What is SKIMS?
- There is a similar study DOI:[10.13140/RG.2.2.25146.31680](https://doi.org/10.13140/RG.2.2.25146.31680). Therefore, the contribution to the new body of knowledge is minimal
