Belgian Tervuren

National Cancer Institute

Source

National Cancer Institute. *Belgian Tervuren*. NCI Thesaurus. Code C53759.

The Belgian Tervuren is a slender dog, squarely proportioned and solidly muscled, but not bulky. The erect ears are equilateral triangles. The harsh coat is medium to long, with a dense under coat and a straight, black-tipped, outer coat which produces a characteristic black overlay. Height: 22-26 inches (56-66 cm.) Weight: 60-75 pounds (27-34 kg.)
