The article is written well, but need the improvement. My comments are given below

1. Authors write the abstract in concise form and focus at the contribution
2. Authors add the motivation for the article
3. The representation of methodology is poor, need to represent with the help of suitable diagram and also focus at the technology used to improve the organization.
4. Authors can add sequential diagram also
5. Contribution is limited
6. Authors can add state of art comparison table for research gaps
7. Authors add the following article to improve the literature review
8. AI-Based Sustainable and Intelligent Offloading Framework for IIoT in Collaborative Cloud-Fog Environments
9. **AI**-based fog and edge computing: A systematic review, taxonomy and future directions
10. A review of Internet of Things: qualifying technologies and boundless horizon
