Potential competing interests: No potential competing interests to declare.

Dear author, it was my great pleasure to read about your important work helping refugees, and learning more about the lives of some of the refugees you have met and helped. You write that your text was never intended to be an academic article, and maybe you should disseminate your important work using other formats? It will need a lot of work to make the text into an academic text. I wish you the best of luck with your important work.
