Review of: "Management of Choledochal Cyst of Cystic Duct in Adult: A Very Rare Case Report"

Vish Bhattacharya¹

1. Gateshead Health NHS Foundation Trust, Gateshead, United Kingdom

Good paper with good radiology images. The laparoscopic image is not so good.

Excellent review overall. However, please remove the generic names of drugs.

Also, please mention why the preferred treatment of complete excision of the extrahepatic bile duct, cholecystectomy, and reconstruction using Roux-en-Y hepaticojejunostomy was not carried out.
