The text has a lot of quality and makes a bibliographic review of the theme with methodology and rigor, contextualizing it and discussing it in a broad way. I have only two suggestions to make. First, when it says in the abstract "Nationwide" it would be interesting to say that it is about the USA. Second, I don't know if it's my ignorance, but as I'm not an American, I had to research what the acronym IOA means, I believe it would be good to describe it in full the first time it appears. Other than that, the paper deserves only praise.
