# Central Nervous System Mesenchymal, Non-Meningothelial Neoplasm

National Cancer Institute

## Source

National Cancer Institute. *Central Nervous System Mesenchymal, Non-Meningothelial Neoplasm*. NCI Thesaurus. Code C5449.

A benign or malignant mesenchymal neoplasm originating in the central nervous system or the meninges and showing fibrous, fibrohistiocytic, adipose, myoid, endothelial, chondroid or osseous, but not meningotheial differentiation. Depending on the histological features and clinical behavior of these neoplasms, their grade ranges from benign (WHO grade I) to highly malignant (WHO grade IV). (Adapted from WHO)
