**Potential competing interests:** No potential competing interests to declare.

The author had taken positive efforts for writing the manuscript. however, there are need for some revisions in the paper.

1. Abstract must be improved.
2. In introduction section literature review in depth and research gap must be mentioned in the last paragraph.
3. Improve the quality of figures and graphs.
4. Need for more discussion on results.
5. A separate session to be added on future scope in the direction of research.
6. Conclusions need to be improve.
7. Grammatical errors must be removed.

As per my suggestion some revisions are to be needed for improvement of the paper.

Thanks and regards,
