

Review of: "[Viewpoint] World Immunization Week: Immunization of Healthcare Workers – A reminder"

Gülnur Kul

Potential competing interests: No potential competing interests to declare.

It is an important issue in terms of drawing attention to the vaccination of health workers, who constitute an important group in terms of vaccination. Suggestions were made in a short and concise way. however, the lack of information on hepatitis A and tetanus vaccination is a deficiency. I think that information and advice about these two vaccines should be added to the article.
